

In-Market Inventory Scanner App

User Guide

In-Market Inventory Scanner App

The In-Market Inventory Scanner App is a web-based portal and mobile app that allows you to track the card distributions that you have made to your healthcare provider (i.e. physicians, pharmacies, clinics, etc.).

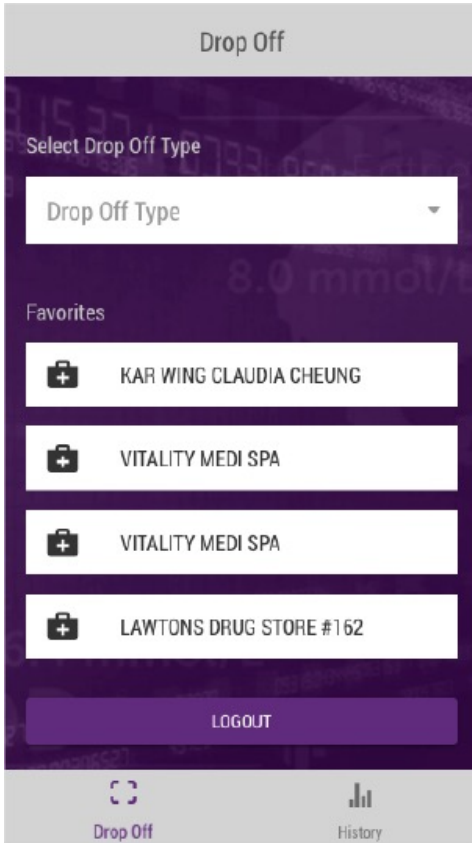

Copyright and Permission to Reproduce: Copyright of all content and material within this proposal is owned by STI Technologies Limited. None of the Material may be copied, reproduced, distributed, republished, downloaded, displayed, posted or transmitted in any form or by any means ("Use" or "Used"), without the prior written consent of STI Technologies Limited.

The image shows a woman in a professional setting, smiling while using a mobile device. A large, semi-transparent smartphone screen is overlaid on the right side of the image, displaying the 'Add Drop Off' screen of the In-Market Inventory Scanner App. The app interface is purple and white, with the following fields and buttons:

- Physician Drop Off Date***: Select Drop Off Date (Mar. 15, 2022)
- Physician Province***: Select Province (AB)
- Search Type***: Select Search Type (Name)
- Physician Name**: Search Physician Location
- ADD PACKET(S)** button
- ADD NEW LOCATION** button
- Drop Off** button (with a QR code icon)
- History** button (with a bar chart icon)

Drop Off Type

Select Drop Off Type:

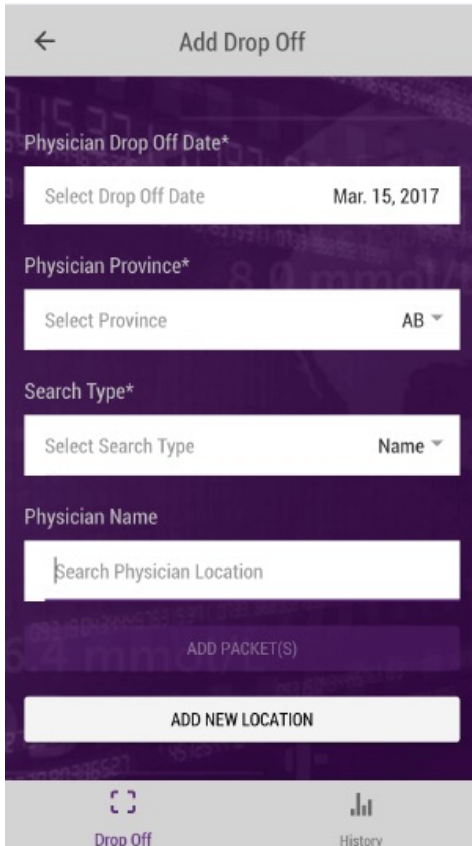

To select drop off type, tap on the **Drop Off Type** bar. You may select from Physician, Pharmacy or Clinic.

Favourites List:

Locations you have added to favourites from the **Add Drop Off** screen will appear on this page. Tapping on a favourite location will pre-load that location's data into the following screen.

To remove a favourite, swipe to the left, and tap the **Remove** button.

Drop Off Location Search

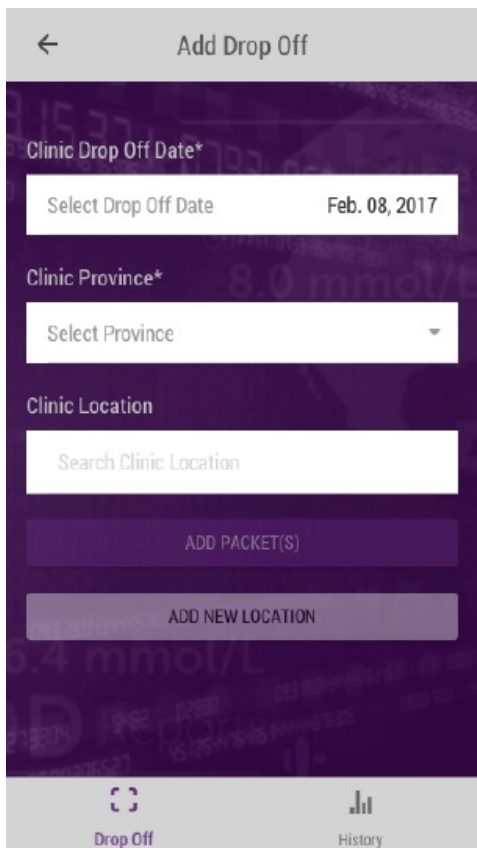

The screenshot shows a mobile application interface titled "Add Drop Off". It features several input fields and buttons:

- Physician Drop Off Date***: A date picker showing "Mar. 15, 2017".
- Physician Province***: A dropdown menu showing "AB".
- Search Type***: A dropdown menu showing "Name".
- Physician Name**: A text input field with the placeholder "Search Physician Location".
- ADD PACKET(S)**: A button.
- ADD NEW LOCATION**: A button.
- Bottom Navigation Bar**: Contains two icons: "Drop Off" (a location pin) and "History" (a bar chart).

Search:

For the fastest search results, users should type the first name, followed by last name, and avoid using commas if searching on multiple identifiers such as name and address.

Add/Favourite Drop-off Location

{{ type }} Drop Off Date:

Today's date is selected by default. To change the date, tap on the **Select Drop Off Date** bar.

{{ type }} Province:

Tap the **Select Province** bar and choose the province in which the drop off is located. Tap **OK** to continue.

{{ type }} Address:

Tap on the **Search Location** bar (Physician, Pharmacy, Clinic) and begin typing to search for existing locations. Tap on the desired location within the list to select it.

Adding a New Location:

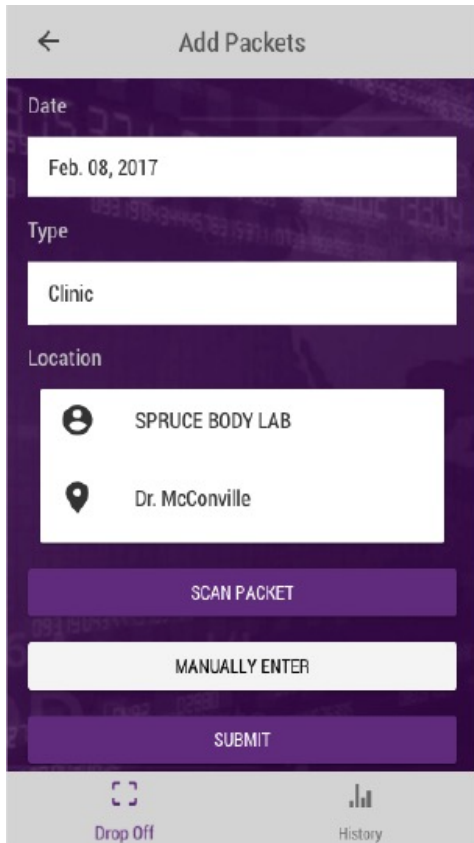

If the desired location does not exist in the list, tap the Add New Location button to add it. Once the desired location appears in the Location field, tap **Add Packet(s)** to continue.

Creating a Favourite Location:

Once the desired location name appears in the Location field, tap the star icon to save that location to your favourites list.

Adding Packets

The screenshot shows the 'Add Packets' screen with a back arrow in the top left. The form includes a 'Date' field with 'Feb. 08, 2017', a 'Type' field with 'Clinic', and a 'Location' section with two options: 'SPRUCE BODY LAB' (selected) and 'Dr. McConville'. At the bottom are three buttons: 'SCAN PACKET' (blue), 'MANUALLY ENTER' (white), and 'SUBMIT' (blue). The footer has 'Drop Off' and 'History' icons.

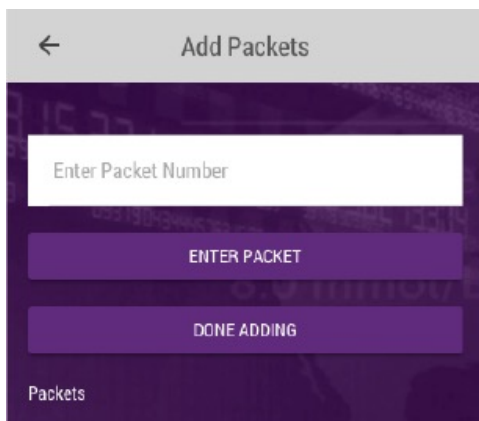

Add Packets:

Review the information on this screen to ensure that it is correct. If you need to make corrections, tap the back arrow in the header to return to the previous screen.

When you have confirmed that the location information is correct, tap the **Scan Packet** button to access your device's scanner functionality, or tap **Manually Enter** if you wish to enter the packet(s) manually without using your device to scan.

Packets List:

Packets you have added (either by scanning or adding manually) will appear in the Packets list at the bottom of this screen. When you have added all desired packets for this session, tap the **Submit** button to submit the list of packets.

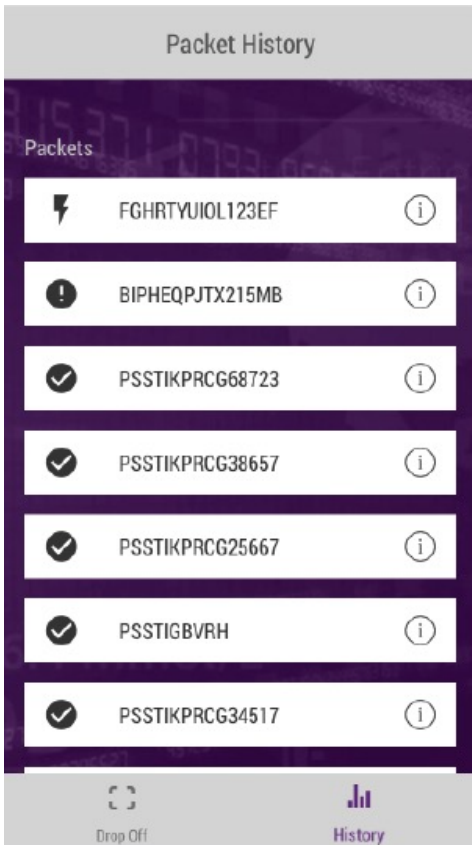

This screenshot shows the 'Add Packets' screen with the 'Enter Packet Number' field active. Below it are two buttons: 'ENTER PACKET' (blue) and 'DONE ADDING' (blue). The 'Packets' list is visible at the bottom.

Manually Adding Packet(s):

Tap on the **Enter Packet Number** field to open your device's keypad and manually enter a packet code. Tap the **Enter Packet** button to continue.

Packets you have added manually will appear in the Packets list at the bottom of this screen. When you have added all desired packets for this session, tap the **Done Adding** button to add the list of packets to the queue and return to the previous screen.

Packet History

Packet History:

A history of submitted packets appears in this list. Tap on any item in the list to view details about that packet. The icon on the left of each packet item indicates its status:

- ⚡ Processing
- ! Error
- ✓ Accepted

To return to the **Packet History** list at any time, click the "History" icon in the bottom tab bar.
